L2L2L

- Because new technologies keep coming disruptive innovation is the way it is now. Think of the correlation between disruptive innovation and education? What are the elements of a complete education? that is to prepare students for their future
- the acculturation of the individual - passing on our culture from one generation to the next
- appreciation of social, aesthetic, philosophical, moral. positive member of society
- preparing students for their life beyond school - learn to love to learn
- We have no choice but to prepare them for that future.
