PROPOSED NEW MODEL

KESA – Stakeholder Representation

How stakeholders are directly involved in the process:

School building leadership team (BLT)
building employees

District Leadership team (DLT)
employees from across the district

Local Board of Education

School building site council (BSC)
parents/community/business-industry

District site council (DSC)
parents/community/business-industry

Outside validation team
PK-20 education professionals

Building Leadership Team

Collaborate with the Building Site Council and District Leadership Team to determine and participate in the work of improving student learning through quality participation in the accreditation process

Building Site Council

Collaborate with the BLT to determine and participate in the work of improving student learning through quality participation in the accreditation process

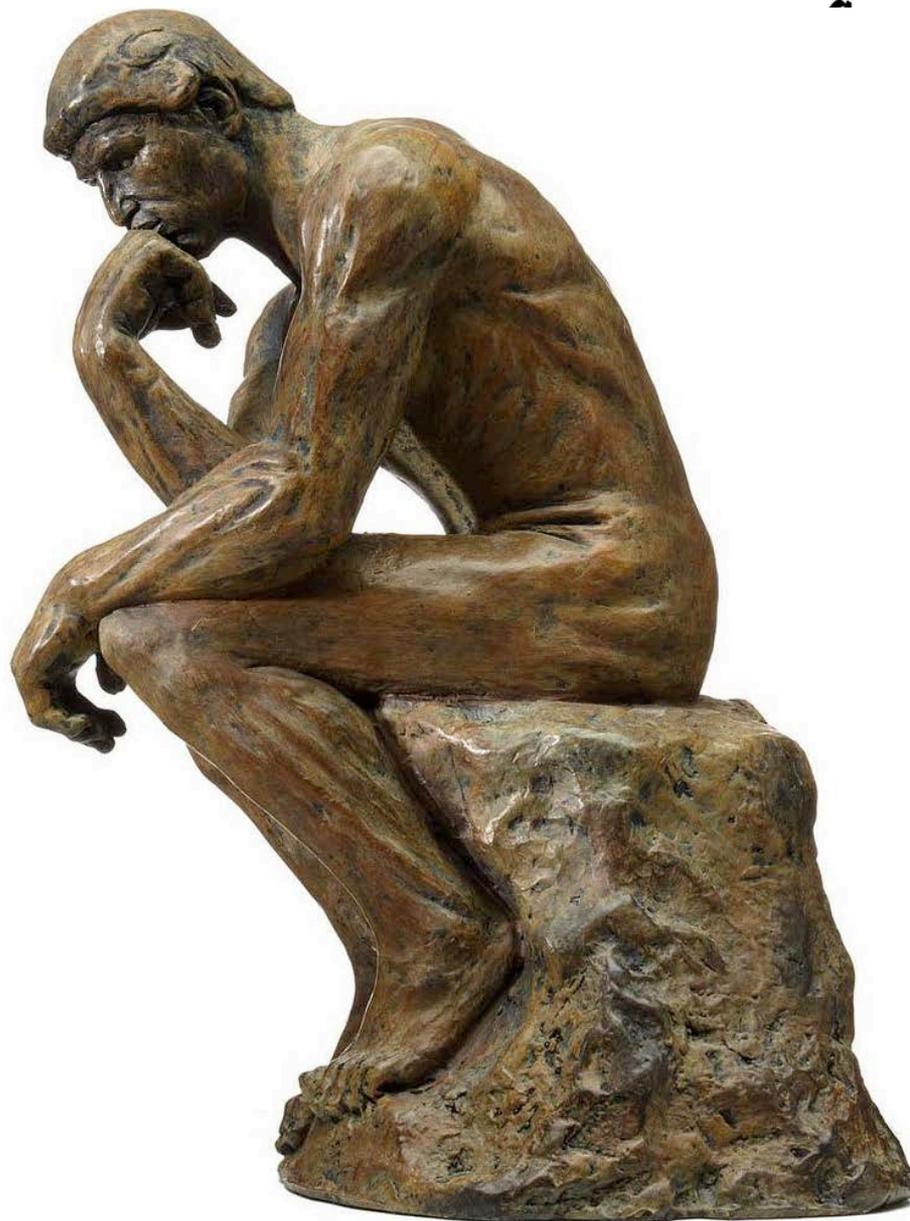

When did Site Councils begin?

In 1992, the Kansas legislature enacted K.S.A. 72-6439, a state statute that instituted the Quality Performance Accreditation (QPA) system.

What is the current focus of your leadership team(s) and building site council(s)?

How could they be involved more involved in the process?
