

# KIDS and KITE Connection

James Herynk  
Trainer AAI

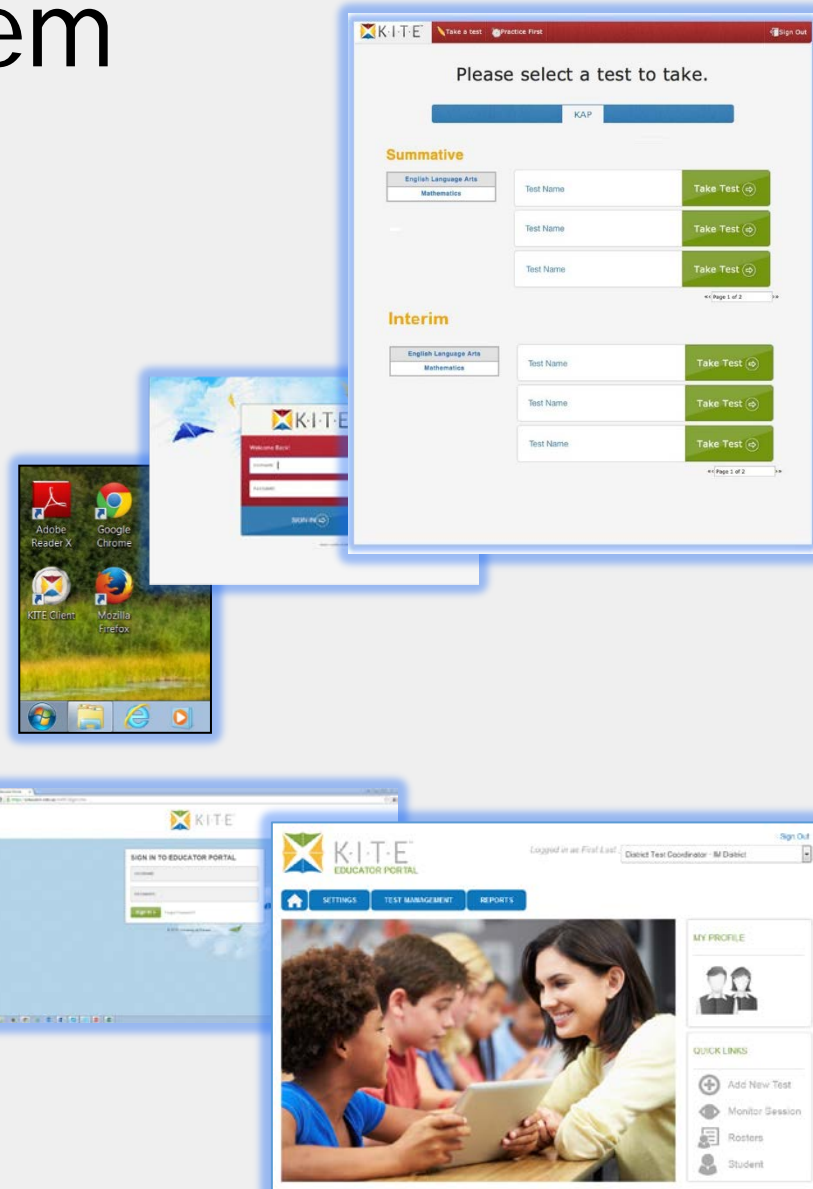

NOTE: see updates/edits to PPT in red

# Overview

- KITE System
- Resources
- Assessment Types
- Test Management Menu
- Organization, Roles, Permissions, Levels in EP
- Flipping the Data Year
  - Data Extracts in Educator Portal
- Rosters and “Rosters”
- Data Feed Schedule
- Data Elements
  - TASC
  - STCO, **more information to come.**
  - TEST
- Educator Portal Demo
- User CSV Upload: “Quick Reference: Updating User Accounts”
- Summary: Adding and Editing Data Options: Summary
- Summary: Changes
- KITE Client and Educator Portal: Supported Platforms and Browsers
- Service Desk

# KITE™ System

- KITE is a platform delivering the next generation of assessments.
  - KITE Client
    - Delivers assessments to students
    - Download and install from the KAP website
  - Educator Portal
    - Manage student, user, and assessment data
    - [educator.cete.us](http://educator.cete.us)

# Resources

## [ksassessments.org](https://ksassessments.org)

### A. KITE Client (new-Release Available)

- Windows
- Macintosh
- iPad
- Chromebook

### B. Educator Portal (new-Release Nov. 5)

- Educator Portal Manual
- Educator's Guide to KITE Client
- .CSV Templates for Users

### C. Local Caching Server (new-Release Oct. 29)

- Manuals for Mac, Windows, and Linux
- Request the Local Caching Server (LCS) Software

# Resources

## [ksassessments.org](https://ksassessments.org)

### D. Videos

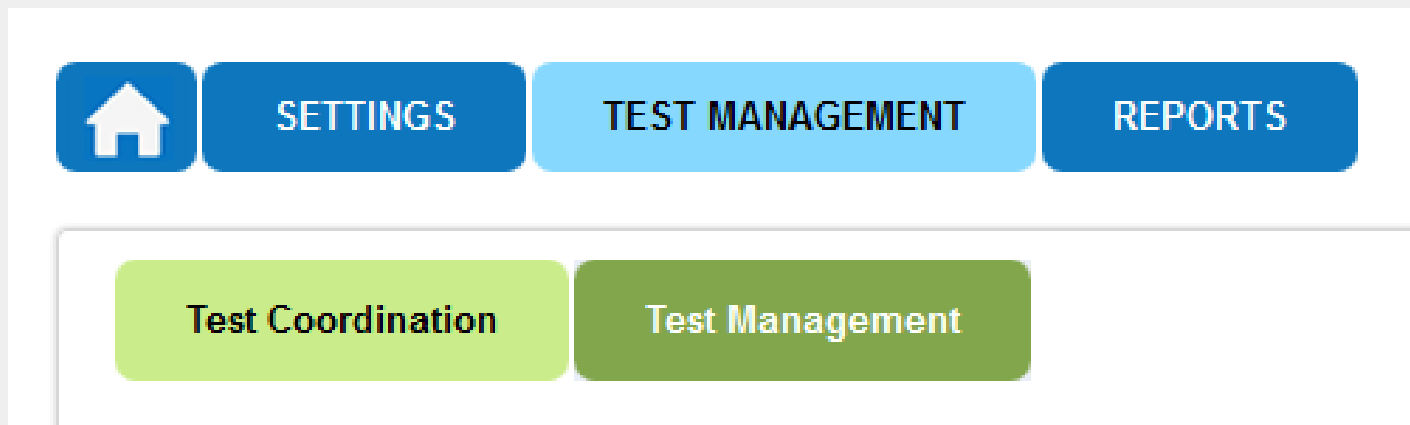

- Teachers
  - View and Verify Student Data: Teachers
  - Access and Edit the PNP
  - Working with Data, Columns, and Tables: Teacher
- District Test Coordinators
  - Upload User Template
  - Add User Manually

# Assessment Types

- **Practice Tests** - Demo tests with universal usernames and logins for anyone to access and experience the KITE.
- **Interim** - Interim assessments are small item collections for a grade and subject aligned to Kansas standards. New item collections, including MDPTs and listening items will be available in January.
- **Dynamic Learning Maps** - A consortium of many states collaboratively developing an assessment system for children with the most significant cognitive delays in ELA, Math, and Science.
- **Summative Assessment** - End of year assessments in ELA, Math, Science, History and Government. This includes Performance Tasks (MDPT) and a new Adaptive sequence.
- **Career Pathways Assessment System (cPass)** - Assessments for high school students to test their readiness for technical training or entry into the workforce. Each assessment consists of a computer-based assessment and a performance task in both a general knowledge assessment and a specific career pathway assessment.

# Test Management Menu and Tabs

- Test Management Menu
  - Test Management tab
    - Interim Assessments
    - Dynamic Learning Maps Assessments
    - cPass
  - Test Coordination tab
    - Summative Assessments

# Organization Level and Roles

- Organization/level
  - Controls from where you will see data
    - A specific name of a school building, district, or state
- Roles/permissions
  - Controls what you can do in the system

Most Common Roles	Permissions
Teacher	Can only view students connected to them by a roster. In addition, this role can create, edit, and view PNPs.
Teacher: PNP Read Only	Can only view students connected to them by a roster. In addition, this role can view PNPs.
Building Test Coordinator	A building test coordinator can create and edit individual users and rosters for a school building as well as upload CSV files. In addition, this role can create, edit and view PNPs.
Building Principal	A building principal can create and edit individual users and rosters for a school building as well as upload CSV templates.

# Flipping the Year: 2014-2015 to 2015-2016

- Flipping the year means AAI archives student related data. Archiving means the data will no longer be available for access in Educator Portal.
- AAI **WILL** archive:
  - Students
  - Rosters
  - Formative test sessions and monitoring
  - Summative test sessions and monitoring
  - Data extract(ability) for 2014-2015 data
- AAI **will NOT** archive:
  - Users
    - You can inactivate users from your district/school
    - You can adjust roles, such as Teacher to Teacher PNP Read Only, by editing a User Profile
  - Personal Needs Profiles (also known as PNP or Access Profile)
  - First Contact Surveys for students

# Flipping the Year: Data Extracts

- Extract Abilities in [EP](#)

Extract	Description	Requested	File	Action
Current Enrollment	Student enrollment information. File may also be used to upload enrollment information.	03/06/2015 09:59:14 AM		<a href="#">New File</a>

Roster	Student assignment specific to educator and subject.	12/31/2014 10:56:47 AM		<a href="#">New File</a>
Users	Educator Portal users and their role(s) by organization.	12/31/2014 09:31:13 AM		<a href="#">New File</a>
Test Records	Current Test records for students. File may also be used to upload Test, Exit and Clear records.	03/25/2015 02:42:16 PM		<a href="#">New File</a>
DLM Test Administration Monitoring	Testlets assigned and completed in a subject, per student. Used to monitor testlet administration.			<a href="#">New File</a>
Accessibility Profile Summary	Student counts by organization for supports selected in Personal Needs Profile (PNP).			<a href="#">New File</a>
Test Administration	Test administration status by student and subject.			<a href="#">New File</a>
Test Tickets	Student login and ticket information for tests.	03/10/2015 03:47:28 PM		<a href="#">New File</a>

# #Whatsa "Roster"? ...in EP

- Rosters are permission to see a student
- Rosters are security
- Rosters are a mechanism for FERPA compliance
- Rosters can be many or one
- Rosters from TASC vs. STCO = Interim vs. Summative
  - There are future enhancements to Educator Portal that are being developed at this time, which may rely on this logic to drive the user's interface with data.
- NO roster means a student will not be seen by any Teacher, only DTCs, BTCs, or roles with similar permissions
  - "How can I see my student?" a teacher might say.
  - "I can see your student, how can I see if the student is rostered to you?" a DTC might respond.
    1. Check the student profile to see a list of rosters the student is on.
    2. Check the existing rosters for that teacher from the Rosters Menu to see if the student is on a roster for the teacher.

# Data Feed Schedule

- The data feed is from KSDE (holding your districts KIDS data) to AAI (populating Educator Portal)
  - TASC, STCO, and TEST
- AAI will begin taking in your district's 2015-2016 data in early November.
- The data feed from KSDE to AAI will be processed every 30 minutes of every day.
- Last year, it was every evening.

# TASC: KIDS Data Elements in Educator Portal

- AAI/EP intake from KSDE continual, starting early November
- Generates student record with demographic data
- Creates a “Roster”, tying students to their teacher
  - Used for Interim assessment (Math, ELA, MDPT, and Listening)
  - Permits teachers to see students (FERPA)
  - Allows teachers to set up Interim Assessment “Test Sessions”
- Generates User/Teacher accounts
  - Additional district level accounts are created by KSDE
  - Additional building level accounts are created by the DTC in Educator Portal (Add New User) or by .CSV User Template Upload.
- TASC Roster Naming will be as follows: subject-first initial.last name (EXAMPLE: ELA-J.Kennedy)
- Creates CPASS “Rosters” for CCQ
  - Plant Systems, Animal Systems, Finance Assessment etc.

# STCO: KIDS Data Elements in Educator Portal

- MORE INFORMATION and CLARIFICATION COMING SOON

# TEST: KIDS Data Elements in Educator Portal

- AAI/EP intake from KSDE continual, starting early November
- Creates TEST records for Summative
- Creates EXIT records
- Creates CLEAR records
- Generates student record (if not already in the system)
  - May help assign Assessment Program for Students based on TEST type.
- Generates NO User accounts,
  - Will assign the Dynamic Learning Maps Assessment Program to a User's profile.
- Creates NO "Rosters" for KAP general assessments
  - Will create Dynamic Learning Maps Roster based on the Procter field
  - TEST DLM Roster Naming will be as follows: Unknown at this time.
- Updates/Edits student demographic record data
- NOTE: There are new TEST type codes for cPass and ELPA21

# TASC: What Can the Service Desk see from your KIDS?

- In Educator Portal
  - Students
  - Users
  - Rosters (Interim, Summative/STCO as well)
- In Reports Data Extracts
  - Future construction

All user accounts from the 2014-2015 school year are still in Educator Portal, so most DTCs will only have a few users that need to be added or updated. These user accounts can be edited individually in Educator Portal or changes can be uploaded with a CSV file.

For larger districts or districts with an unmanageable amount of updates for 2015-2016, we can help. The Help Desk can remove users from Educator Portal. After the users are removed, the district could then upload users with a CSV file. If you have questions, call 1-855-277-9752.

## Understanding the User CSV Upload

The User CSV file can be used to add new users to Educator Portal or to update information about existing users. The changes that are made depend upon whether or not the user's email address (i.e., their User ID) or the user's Educator ID already exists in Educator Portal. If the user's email address or educator ID is already in Educator Portal, information is updated or changed as described in the table below.

**Note: If the user's email address and educator ID are new to Educator Portal, the user's information is added.**

Column Letter	Column Header Name	For an Existing Email Address or Educator ID
A	Legal_First_Name	Any entries in this column will replace the information currently in Educator Portal.
B	Legal_Last_Name	Any entries in this column will replace the information currently in Educator Portal.
C	Educator_Identifier	If the user's educator ID has changed, but their email address exists, the user's educator ID will be updated.
D	Email	If the user's email address has changed, but their educator ID exists, the user's email address will be updated.
E	Organization	If the Organization is new to that user, the organization will be added to the existing user.
F	Organization_Level	If the Organization Level is new to that user, the organization level will be added to the existing user.

Column Letter	Column Header Name	For an Existing Email Address or Educator ID
G	Primary_Role	<p>If the user has this primary role already, then that role will become the default role for that organization and level.</p> <p>If the user does not have this primary role, then the role is added as the default for the organization and level.</p> <p><b>Note: The exceptions are the two teacher roles: Teacher (TEA) and Teacher: PNP Read Only (TEAR). Changing a teacher from TEA to TEAR must be done manually in Educator Portal.</b></p>
H	Secondary_Role	<p>The information in the secondary role column will be added as an additional user role for the organization and level.</p> <p><b>Note: The exceptions are the two teacher roles: Teacher (TEA) and Teacher: PNP Read Only (TEAR). Changing a teacher from TEA to TEAR must be done manually in Educator Portal.</b></p>
I	Primary_Assessment_Program	<p>If the user has a primary assessment program, then nothing will change. If the user does not have a primary assessment program, the assessment program will be added to the user.</p> <p><b>Note: Any additional assessment programs must be added through Educator Portal.</b></p>

## Frequently Asked Questions (FAQs)

Refer to the paragraphs below for more information about updating user accounts for the new school year.

### Can a user be added to more than one school or district?

Yes. If the user needs access to more than one school (or district), add a line to the CSV file for each school. The user's email address and educator ID should stay the same, but each line would list a different combination of organization and level and primary roles. Also, the user can be added to another organization by editing the user manually in Educator Portal.

***Can we change a user's role from Teacher (TEA) to Teacher: PNP Read Only (TEAR) using a CSV file?***

No. To change a teacher from the regular Teacher role (TEA) to Teacher: PNP Ready Only (TEAR), you must log in to Educator Portal and edit the user manually.

---

**Note: If you have a large number of users whose role must be changed, contact the Help Desk for assistance.**

---

***Can a user have both teacher roles (i.e., TEA and TEAR)?***

No. A user can have either the Teacher (TEA) or the Teacher: PNP Read Only (TEAR) role.

***Can the user's primary assessment program be changed using a CSV file?***

If the user is not assigned to a primary assessment program, then an assessment program can be added with the CSV file. However, if the user already has a primary assessment program, then the program cannot be changed using the CSV file. To change the primary assessment program for an existing user, log in to Educator Portal and edit the user manually.

***How does a user access the First Contact Survey for DLM?***

To access the First Contact Survey (used by DLM), a user must be assigned to the DLM assessment program. If the user only needs access to DLM, then use the user CSV file to upload DLM as the primary assessment program. If the user will need to access both AMP and DLM, log in to Educator Portal and edit the user manually to add the second assessment program.
